

SHEREN AULIA AZAHRA

Kabupaten Indramayu, Jawa Barat | sherenauliaazahra@gmail.com | 0877-4409-7451 | LinkedIn: [shrlyza](#) | Github: [shrlyza22](#)

An active Information Technology undergraduate student at Telkom University. Driven by a deep curiosity, I am highly enthusiastic about exploring network architecture, modern infrastructure, and the latest technologies. My main interests revolve around Networking and DevOps, particularly in the utilization of Software-Defined Networking (SDN) and Cloud technologies. I am eager to apply my analytical and technical skills to build and design reliable and efficient system infrastructures.

EXPERIENCES

Adaptive Training 6.0	Bandung, Jawa Barat
Adaptive Network Laboratory	2026
NetSchool 2025	Bandung, Jawa Barat
Adaptive Network Laboratory	2025

Learning computer networking fundamental and applying concepts through practical tasks:

- Studied basic networking concepts such as routing and switching as a foundation for modern networked systems.
- Operated Linux based environments for introductory system and networking tasks (e.g., configuring basic network services like SSH/Web server).
- Gained introductory exposure to Python fundamentals in the context of data processing and machine learning concepts.

Study Group Arduino	Bandung, Jawa Barat
Internet of Things Laboratory	2025
• Participated in study group activities focusing on the fundamentals of Arduino microcontrollers and basic physical computing projects. • Gained exposure to basic hardware concepts, including hands-on practice with sensor and actuator integration (e.g., PIR sensors, I2C displays).	

ORGANIZATIONS

UKM Aksara Jurnalistik, Telkom University	Bandung, Jawa Barat
RND (Research and Development) Member	2025 - Present

STUDIES

Telkom University Bandung Current GPA: 3.86/4.00	2024 – Present (Bachelor of Information Technology)
SMAN 1 Indramayu GPA: 92.4/100	2021 – 2024 (Majoring Natural Science)

SKILLS

Networking & System: Computer Networking Fundamentals, Software-Defined Networking (SDN) Concepts, Cisco Packet Tracer.

Programming: Go, Python, C++

Virtualization & Tools: Oracle VirtualBox (Ubuntu Linux), WSL, Docker, Visual Studio Code, Notepad++, Django

Soft Skills: Teamwork, Time Management, Fast Learner, Analytical Thinking, Reflective Thinking, Integrity

Languages: Indonesian (Native), English (Basic - Intermediate)
